DETAILED ACTION

Requirement for Information Under 37 CFR 1.105

1. Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application.
2. The information is required to identify products and/or services and/or materials embodying or identifying the disclosed subject matter that would provide bases for evaluating reference claims 1-33.
3. On 10/26/2004, a personal interview was conducted at the offices of the USPTO wherein applicant presented a markets expert, Dr. James J. Angel, Associate Professor of Finance at Georgetown University, to discuss the proposed invention. During the interview, Professor Angel shed light on what appears to be prior art of record. Professor Angel indicated in his extemporaneous remarks , that in the past, on some exchanges, involving systems that were without automation, specialists were able to negotiate block trades on behalf of their respective client institutions, wherein the trade would be accepted and executed at a price that was a predetermined distance and direction away from the then-current market value.

In light of the foregoing, the Office is asking for the applicant to provide copies of documents or materials, if available, that are related to this practice: the negotiation of a block trades, by specialists, in a system without automation, that involves the placement and execution of an order at a predetermined distance and direction away from market value.

5. In responding to this requirement with copies of documents, where the document is a bound text or a single article over 50 pages, the requirement may be met by providing copies of those pages that provide the particular subject matter indicated in the requirement, or where such subject matter is not indicated, the subject matter found in applicant's disclosure. In response to this requirement, please provide a list of keywords that are particularly helpful in locating publications related to the disclosed art of cross purchase.

6. The applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 CFR 1.56.
